App and connectivity

Please note that for safety reasons the app can only be used to change the power levels and not to switch the appliance on or off.

Apple IOS

- download the "Cooking Surface" app from Apple Store
- turn on the Cooking System (first the main switch under the appliance and then the cable control switch)
- open the app on your phone. You will be asked for permission to access the Bluetooth connection;
- go to the "settings - Bluetooth" menu on your phone and select "RAK INDUCTION" (Ready Access Key Induction). Your phone will now be paired with the system
- enter the password: 123456 (valid for all devices, you can change the password later)
- the app will display an image of the cooking zones for selection
- IMPORTANT: in order to appear on your phone, the cooking zone must first be selected using the cable remote control; once the selected cooking zone appears on your phone, you can set the power level.

ANDROID

- download the "Cooking Surface" app from Google Play Store
- turn on the Cooking System (first the main switch under the appliance and then the cable control switch)
- your phone will automatically connect to the system when you open the app
- enter the password: 123456 (valid for all devices, you can change the password later)
- the app will display an image of the cooking zones for selection
- IMPORTANT: in order to appear on your phone, the cooking zone must first be selected using the cable remote control; once the selected cooking zone appears on your phone, you can set the power level.
